Supported Living Services

Services For

Adults 18+ diagnosed with Autism and / or Learning Disabilities who may present with

- Physical disabilities
- Behaviors that challenge
- Mental health
- Or other complex needs

What is supported living

Program that provide personal care to people as part of the support that they need to :

- gain more independence
- Control their own life
- Live with active participation and equality with-in our community
- Live completely fulfilled lives in their homes.

Funding for Supported Living is provided through the Local Council & NHS

Person-Centered Care Model

Your Life Your Way

Principles of support

- Collaborative approach

Involves the person, families or authorized person in making decisions

- **Individualized support**

Creating an authentic and tailored personal support plan outlining the type of support they receive

- **Progressive**

Continuously working towards

independence in order to promote choice and control in their lives
